

INTERNATIONAL CONFERENCE OF THE VETERINARY WOUND HEALING ASSOCIATION (VWHA) AT EWMA MAY 11TH 2018, KRAKOW, POLAND

“MODELING WOUND HEALING: FICTION OR REALITY?”

Friday, May 11th 2018: 8.30 – 16.00

PROGRAM

8.30 – 8.45	Opening through VWHA President	Jacintha Wilmink
Session 1		
8.45 – 13.00:	Modeling wound healing: Fiction or reality	
8.45 – 9.15	25 Years of wound healing models	Laura Parnell
9.15 – 9.45	Innovative wound and scar models: from in vitro to in vivo and beyond	Ardeshir Bayat
9.45 – 10.15	Porcine genetic model of human diabetes	Simone Renner
10.15 – 10.45	Proteomics and degradomics in porcine wound model	Ulrich auf dem Keller
10.45 – 11.00	Coffee break	
11.00 – 11.30	Small animal wounds as model for human wounds; advantages and restrictions	Susan Volk
11.30 – 12.00	Equine wounds as model for human wounds; advantages and restrictions	Christine Theoret
12.00 – 12.30	Computer models of wound healing; advantages and restrictions	Fred Vermolen
12.30 – 13.00	Panel discussion on “Characteristics of the optimal wound model”	All

13.00 – 14.00	Lunch	
14.00 – 15.15	Session 2	
14.00 – 14.15	No apparent adverse reactions in cat using a neem oil based wound healing remedy(1PWD®)	Fiorella Carnevali
14.15 – 14.30	Suture length to wound length ratio for simple continuous abdominal closure in veterinary surgery: An experimental in vitro study	Gilles Dupré
14.30 – 14.45	Type III Collagen (Col3) promotes a regenerative wound healing response	Susan Volk
14.45 – 15.00	Epithelial-mesenchymal transition and expression of keratinocyte differentiation markers during equine wound healing	Elin Jørgensen
15.00 – 15.15	Evaluation of indices of inflammation and welfare in horses with experimental excisional wounds	Stine Jacobsen
15.15 – 15.30	Award for best oral presentation	
15.30 – 16.00	AGM VWHA – please join	Everybody is invited
